---

1. Go to the Android Marketplace by clicking the icon on your phone or going to market.android.com.

2. Search for the application "Coupons Nao".

3. Click the Install button at the top of the screen and accept the permissions. The application asks your permission to access your location, use your Internet, your GPS, and your camera.

4. The application will then install itself and is ready to use. You can access it from your application menu.
